Re: Zone 3

We thank you very much for your participation in the recent Princeton Future Workshop on April 6 and the Open Community Meeting on April 17. Please find the minutes of both meetings enclosed for your review. We also enclose the presentation by our urban planning consultant, Robert Brown of Brown-Keener Associates, and a copy of the "Findings" that will be published in next week's *Town Topics*.

There is a common view that it would be a good idea for there to be a series of meetings of the three institutions to discuss what collaborative steps might be considered for the development of the area we have been calling "Green Hill".

I am happy to report that Barry Rabner will be contacting you to arrange these.

A proposed agenda, over time, might be for each institution to respond, in turn, to the findings of the Princeton Future meetings and then to put forward a point of view as to their own plans for development. The Mayor, President of Borough Council and Princeton Future stand ready to be a facilitator and a convener of any meetings on behalf of the neighbors of the downtown as you proceed.

Once again, we thank you very much for your participation and the good will you have brought forward so far!
